COMMERCIAL INTELLIGENCE

SATURDAY EVENING, DEC. 3.

GOVERNMENT SECURITIES of all kinds were unchanged in London yesterday, as was also the price of Bar Silver.

COTTON was firm, with sales 12,000 bales, and no change whatever in quotations. American receipts were on a more liberal scale, amounting to 46,000 bales; and although spots were advanced again 1-16d., no doubt in response to Liverpool, March delivery had fallen 10 points.

The total week's receipts amounted to...	2,15,000
The exports for the week to G. Britain	36,000
Do. do. to the Continent ...	41,000
which left stock at all the ports ...	9,23,000

The figures for the week in Liverpool are as follow :—

Total week's sales	75,000
Taken by the trade (including 5,000 forwarded, ...	68,000
Actual export	6,000
Week's imports	53,000
Leaving an actual stock of	4,35,000

The amount afloat, however including the telegraphic advices to date, was

Americans	180,000
East Indian	42,000

and the total visible supply now amounts to 2,560,000 bales.

The above figures do not show any material alteration in the position of the staple, but spinners seem still nervous about the future, as they have taken several thousand bales more than their consumption.

SEEDS and WHEAT are again reported flat, but no change in quotations.

GOVERNMENT PAPER in our local market has been quiet but steady, and the closing quotations are 4 per cents. 101⅛, and 4½ 110¾d. We do not hear of much business, however.

Spinning and Press shares are dull, and little business offering. The tendency is downwards all round, and we have in some cases reduced our quotation a few rupees per share.

EXCHANGE in Europe is very firm, nearly all the Banks being open to sell at 1-7 31-32 demand, and 1 7 15-16 telegraphic; whilst they are less willing to buy forward at 1-8½ for 3 months' credits. A good many Bills have been offering for the second and third months of the New Year, no doubt mainly against the new contracts for Cotton. Documents have been placed to a moderate extent for all December at 1 8 9-16, and we believe France have been sold at 21 3¾ for 3 months' credits.

On CALCUTTA the rate is still par to 1 anna discount.

PIECE-GOODS are unaltered.

TWIST is also quiet, and large stocks are held in the Bazaar, where our prices do not respond to the advance in Manchester.

COPPER is dull, and re-sales in the Bazaar are still made at Rs. 49½.

YELLOW METAL is in fair demand, and has a ready sale at Rs. 39½.

COMMISSARIAT.

SEALED TENDERS will be again received by the Executive Commissariat Officers at Bombay and Poona, at 1 p.m. of the 9th January, 1882, for the supply to this Department of the following, of BONA-FIDE Indian manufacture, viz. :—

Cumblees, white, or Blankets, country white... 1,450
Cumblees, Black, or Blankets, country black... 1,225
Jhools, for Horse, or issue to Mounted Corps ... 1,537
Jhools, for Yaboos, Ordnance, and Baggage Mules, of 3 sizes, viz.:—6' by 6', 5½' by 5½' and 5' by 5'.. 228

The above are the probable annual requirements, and to this extent the articles named will be required for 4 years, commencing from 1st October, 1882; the supply to be delivered in half-yearly instalments, it being distinctly understood that the above are estimated numbers, but should circumstances render necessary, the full supply will not be taken, of which due timely intimation of reduction in numbers will be given to Contractors.

Tenders will be received up to 1 p.m. of the 9th January, 1882, at which they will be opened by the respective Executive Commissariat Officers in the presence of such of the Tenderers as may attend.

Persons desirous of undertaking the Contracts can obtain, on application at the Executive Commissariat Offices concerned, printed forms of Tenders, Schedules of Articles to be supplied, and any other information they may require connected with the Contracts, and the conditions the Tenderers must abide by to prevent their tenders being treated as informal.

No reason will be assigned for the rejection of the lowest or any tender.

No tender will be received or attended to unless accompanied by the necessary cash deposit.

MONDAY, DECEMBER 5, 1881.

THE Port Trust commands special attention in our columns to-day from a résumé we give of the accounts for the six months ending the 30th September last, and which appear in the last *Government Gazette*, and also from two important matters brought before the meeting of the Trust on the 22nd ultimo—the one a proposal to ask the guarantee from the local Government for the bonds of the Trust, the second, a proposal to put these bonds on the London Stock Exchange. With regard to the accounts, the principal item is the capital debt, which stands at Rs. 38,73,63,846, of which the Prince's Dock stands for 76 lakhs and the purchase of the foreshore properties at 71¼ lakhs. Besides these, the debenture loans amount to Rs. 16,91,781. The estimated receipts for the whole year from the bunders, dock, rents, and port fund were Rs. 23,46,460; while the receipts for six months—and these six months include the dullest months of the year—amount to Rs. 15,57,812. On the other hand the estimated expenditure on the same departments for the year was Rs. 9,00,736, while the actual expenditure for six months was Rs. 4,52,643. This is apart from interest, which will absorb a sum of Rs. 15,54,700 for the year. Taking all the accounts, the figures stand as follow :—*Receipts:* budget estimate for the year Rs. 25,57,000; actual for six months Rs. 16,25,864. (The receipts for the same months of 1880 were Rs. 11,26,573.) *Expenditure:* budget estimate for the year Rs. 25,90,975; actual for six months, not including interest, Rs. 6,86,875. (The expenditure for the same months of 1880 was Rs. 5,77,441.) The surplus for the six months was Rs. 3,00,521, and it must be borne in mind that this surplus was gained in that half of the year which includes the monsoon months, when business is comparatively dull. The main increase is to be noted in the Prince's Dock, the estimate of receipts for the year having been Rs. 5,46,500, while in six months the actual receipts have been Rs. 4,40,014. It is clear that the Trustees had not anticipated so speedy a recognition of the advantages of the dock on the part of the mercantile community; while the latter will find, no doubt, their reward in the diminished charges which the result of this year's working of the dock will enable the Trustees to make for the coming year. When to this unexpected surplus is added the fact that the land estate of the Trust is being occupied to an extent heretofore unknown, and that thus a permanent source of revenue is secured on what has hitherto been dead property, it will be seen that the prospects of the Trust are most encouraging.

At the same time, though the prospects of the Trust are very promising, it is incumbent on the Trustees to lose no opportunity of diminishing their expenses, as every reduction in expense can be followed by a reduction in the charges made upon the trade, which is now in such close competition with that of the mercantile communities in other parts of India and throughout the world. With this view two propositions have been brought forward by Mr. Kittredge, as will be seen in the excerpts of the proceedings of the meeting on the 22nd ultimo, published in another column. The object of these resolutions is the reduction of the heavy charge for interest, which amounts, as stated above, to 15½ lakhs annually. The proposal is to get the formal guarantee of the Bombay Government to certain of the loans issued by the Trust, and to place these loans on the London market. It will be remembered that six months ago the Trustees had an opportunity of converting a 4½ per cent. loan of 76 lakhs into a 4 per cent. loan of the same amount. Unfortunately through the unexplained inaction of the local Government in legislating for the necessary powers, the opportunity was lost, and the trade is still burdened with a charge of Rs. 38,000 per annum, which a little greater interest on the part of Government would have enabled the Trustees to relieve it from. It is very doubtful when another like opportunity will present itself, as the local market is not generally strong enough to absorb of itself so large an amount of local loans which can only be used for investment or for speculation, and which are not available for remittances to foreign markets. It is essential, therefore, in order that the interest on the debt of the Trust may be made acceptable to foreign capitalists. The Bombay Government is so clearly interested, both directly and indirectly, in any reduction of the burdens now thrown upon the trade of the port that they could, we think, be fairly called upon to incur some responsibility in order to relieve the trade. But, as Mr. Kittredge's letter points out, the local Government can assist the trade without incurring any fresh responsibility whatever. Under the terms of the Act, as we pointed out in July last when considering the Bill brought into the Legislative Council to enable the Trustees to convert their loan, the Bombay Government guarantee both the holders of the Foreshore Loan Debentures and also the Government of India, the former for the purchase money of the private foreshore properties, and the latter for the cost of the Elphinstone Estate; while under the provisions of the Port Trust Act the loans issued to the public have a prior claim on the property and revenues of the Trust. The holders of all bonds issued by the Trust to the public have therefore the practical guarantee of the Government. The proposition, which the Trustees have approved of and forwarded to Government, is therefore that Government shall add its formal to its practical guarantee, so that the Trust may get the full benefit of the real value of their securities. It is one of those cases in which, without any cost to itself, the Government can assist the trade of the port—trade in the prosperity of which the Government is of course vitally interested. It is a trade which encourages that movement of produce which stimulates production, and thus tends to enhance the other revenues of Government.

The proposal to place the foreshore loan of the Trust, which is already formally guaranteed by the Bombay Government, upon the London Stock Exchange, must tend to enhance the value of these securities. The Trustees are empowered to issue coupon bonds in exchange for the original debentures, and the coupon bonds being payable to bearer, will be available for remittances to England, without the trouble of getting them enfaced; while the coupons when they become due, will be saleable to any of the Eastern exchange banks in London in the same manner as any sight draft. The Trustees have, we understand, been informed that there will be a market for their securities in London, and it may reasonably be anticipated that, when the arrangements proposed by the Trust are completed, the value of the Port Trust bonds will rapidly approach that of Indian Government paper; for practically a loan guaranteed by the Government of Bombay is as good a security as a loan issued by the Indian Government. The ultimate saving to the Trust in case they are able to convert their 4½ per cent. loans into those bearing 4 per cent. interest would amount, as appears in the letter referred to, to nearly 1½ lakhs annually. It is possible that this large saving may not be made; at any rate, it must be a matter of some time, as the Trustees will need to put their loans on the market slowly. Their aim, however, should be to reduce their interest charge, and for this purpose they can fairly claim all the assistance which Government can give. The proposal now made by the Trustees is a very moderate one: it is that the local Government shall secure by legislation the necessary power to give its formal guarantee to such of the loans of the Trust as may appear to them hereafter to be desirable. Even by accepting the proposition, and passing the needed Bill, the Government would not necessarily come under any undertaking to give the guarantee referred to; they would only be in possession of the desired power when an opportunity of using it appeared to them to have come. The proposition must certainly commend itself to the careful consideration of Government.

OUR London correspondent, among other interesting items which we publish this morning, telegraphs the curious fact that the famous John Dunn has been appointed Chief of Zululand. This is an admission that the arrangement made at the close of the Zulu war, by which the country was split up amongst some fourteen chiefs, each independent of the others and all subordinate to a British Resident, has not been found to work well. The Zulus were unhappy without a king. Some of them agitated for the restoration of Cetewayo, and others for the reconstitution of the kingdom under Ozanne. As there is no force in the country to keep the different sections of the population from crystallising into a State once more, it has evidently been thought advisable to meet their views and give them another king, while at the same time preserving British influence by selecting for the vacant throne a man who combines in his own person the double advantages of being an Englishman and a polygamist, not to say a heathen, and is therefore in a position to inspire confidence on both sides. It is to be hoped that His Majesty will be able to get on with his new subjects and cause them to forget the exiled Cetewayo. We doubt much, however, whether a prudent insurance agent would care to issue a policy on His Majesty King Dunn's life, now that he occupies the throne of the legitimate king.

MAJOR-GENERAL W. S. HEWETT, Commandant of the Bombay Volunteer Rifle Corps, has been nominated Sheriff of Bombay for the ensuing year. The appointment is quite in accord with the traditions of the office. General Hewett is a popular man, and an excellent Commandant of Volunteers, and his appointment to the honourable and lucrative, if not very onerous post, of Sheriff, will no doubt meet with general approval. Perhaps the selection may be taken as some indication of a desire to remove the impression of unfriendliness on the Governor's part towards the Volunteer movement which still remains as the result of His Excellency's unfortunate refusal, on his first arrival in Bombay, to take up his predecessor's office of Honorary Colonel of the corps. We should be glad to see the Governor give proofs of warmer interest in and better appreciation of the Volunteers. The force is an excellent public institution, and it should not be cold-shouldered by the highest civil authority in the Presidency. The corps has shown that it can exist and flourish outside the forcing-house of official favour, and it is now probably stronger and more stable than it has been at any time since its formation. Still a revival of "the light of other days" would do the corps no harm, but rather much good. There is rather a dearth at present of good men to take up vacant commissions. Perhaps the approval and patronage of the Governor might have its effect in inducing men of suitable position to come forward with greater readiness to make the sacrifice of time and means which the position of an officer of Volunteers implies in Bombay, as all the world over.

HIS EXCELLENCY THE GOVERNOR would perhaps have hesitated a little before putting the Bombay time out of joint, had any one taken the trouble to inform him that there is an insuperable religious difficulty in the way of the general acceptance of Madras time in lieu of that of the sun by the vast majority of the population of this city. Every Parsee is bound to say prayers at sunrise and at sundown, which it would imperil his immortal soul to say half an hour at the wrong side of that Kosmic event. With the Mussulman matters are the same, only more so. In addition to prayers at the rising and the setting of the sun, the prayers must be said when it is at its meridian. It would not do to say this prayer backwards, so as to offer it up when it is noon at Madras, or for that matter at Calcutta or at Pekin. The beard of the prophet would wag ominously if the noon of the place where the believer actually was in the flesh were to be discarded, and the prayer offered up when the telegraph signalled that it was noon somewhere else. Has Sir James Fergusson forgotten the dire scandal occasioned by the unguarded conduct of the Cazi who, when the new moon of the Eed was not visible in Bombay, relied upon the news conveyed by the infidel telegraph that the sweet regent of the sky had put in an appearance elsewhere? There was very near being a schism and a riot over this use of the telegraph, which there was no single verse of the Koran to authorise. Neither Parsees nor the followers of Mahomet can afford to discard Bombay time and regulate their lives and, what is more important to them, their future by the Madras clock. The almanacs will tell them the hour of sunrise and sunset in Bombay according to Bombay time. If the clocks are set by "time-serving" people according to the whim of Sir James Fergusson, they will find themselves half an hour out when they come to render up their accounts hereafter. And it is the same with many of the observances of the Hindu community. Bombay time, from the force of things, must continue to be the only true time for the Bombay people.

If Sir James Fergusson persists, the result of confusion will soon become intolerable, and his successor, to whose lot it will fall to reconcile the clock with the sun, may well exclaim with Hamlet :

> The time is out of joint. O cursed spite
> That ever I was born to set it right!

It is really too bad to find a paper like *Native Opinion* publishing such a tissue of arrant nonsense as the following :—

> The case of the young Maharaja of Kolhapur has reached the worst complication and stage which it is possible to conceive mutually and politically. The Vernacular Press has been outspoken to an incredible degree, and now its assertions have been repeated and upheld at public meetings. The gist of all the allegations made and believed in is that the young Raja has been the subject of a base and atrocious system of ill-treatment, which has at last ended, or is threatening to end, in real madness; that madness has been falsely and maliciously imputed to him that to render it apparent to outsiders he was forcibly drugged before being shown to professional advisers; that the most disagreeable men were kept to serve him, while those whom he liked were purposely and causelessly sent away; that these instructed and directed to tease their master by hourly disobedience and thwarting his wishes; that brutal personal violence was offered to him on pretence of his being unmanageable; that marks of such violence are still visible on his person; that this vexatious interference was carried beyond all decency in his domestic and bedroom arrangements; that all this has been done by the State Karbhari and his instruments; and that while the young Maharaja is thus driven mad and made to appear such to the outside world His Highness has been writing most sensibly to his natural parents and friends, bewailing his condition under cruel tyrants, and saying he would prefer the lot of a common peasant to this misery of being a Raja under the circumstances of his natural position. All this is openly and freely asserted, and we have seen no official contradiction or notice of it whatever.
>
> We should say not. Such stuff is not worth contradicting. It is perfectly well known to everybody that the young Maharaja has been in the charge of doctors of great professional skill, who perfectly understand the cause and nature of his malady. Under stringent discipline the young man improves; when it is withdrawn or mitigated he relapses. The notion that he could be "forcibly drugged" before being shown to Dr. Murphy or Dr. Maconachy or Dr. Joynt, and that neither of them could tell the difference between drugging and madness, is really too preposterous. And so of the other statements about "base and atrocious system of ill-treatment," "cruel tyrants," &c., &c. Assertions of that kind do much more than the Vernacular Press Act to damage the Vernacular Press by making it a bye-word and a nuisance

THE VICEROY AT BENARES.

(FROM OUR SPECIAL CORRESPONDENT.)

BENARES, Nov. 30.

THIS afternoon at 4 o'clock His Excellency the Viceroy opened the Prince of Wales' Hospital before a large assembly of spectators. The ceremony took place within the hospital enclosure, in a large tent pitched for the occasions, in which a dais for the Viceroy and the Maharaja, and chairs for the spectators, were arranged. On His Excellency's arrival he was received by the hospital committee and a guard of honour of the Ghazipore Volunteers, which he inspected, afterwards going over the different wards. On arriving within the tent H. E. took his seat on the dais, with the Maharaja on his right, when the President of the Hospital Committee, Mr. Sladen, proceeded to deliver the following statement :—

Your Excellency, ladies, and gentlemen.—Prompted by a generous wish to promote the welfare of their fellow-citizens by providing a suitable hospital for their sick and for the numerous pilgrims frequenting this sacred city, the leading members of Native Society, with the Maharajah at their head, took advantage of the visit of His Royal Highness, The Prince of Wales, to subscribe for the construction of this hospital, anxious alike to commemorate the Royal visit and to carry out their own beneficent purpose.

They accordingly subscribed for the Prince of Wales' Hospital the munificent sum of a lakh, three thousand, two hundred rupees, of which the Maharajah of Benares contributed twenty-five thousand for the main building, besides meeting the cost of the foundation-laying and opening ceremonies.

GALLE, DEC. 4, 6-15 A.M.

French mail-steamer Yangtse, from China, arrived.

We have been obliged, by the pressure on our space, to hold over our detailed report of the Colaba Press Company's meeting. It will appear to-morrow.

A good many of the curiosities disposed of at the recent sale of M. Roque-Martine's Japanese collection were purchased for His Majesty the King of Burma. It is satisfactory to find that this potentate has taken to the fine arts, which it may be hoped will soften his manners, and not permit them to be ferocious as of old.

A native member of the Municipal Corporation intends to move at its next meeting that Madras time be adopted in all Municipal establishments. He had better let it alone.

The meeting of the Corporation on Saturday was adjourned for want of a quorum, about a dozen Corporators only having felt it their duty to be present. The Chairman, Dr. Blaney, again deplored the absence of members, though they had to consider a subject of the most vital importance to the city—namely, the proposed loan of 60 lakhs for the construction of drains. He adjourned the meeting until Tuesday, and hoped that our city fathers would awake to a sense of their duty, and of the important question which they had to consider. A meeting of the Corporation will also be held to-day for the transaction of ordinary business.

We learn that Government are about to charter shortly transports to bring from Kurrachee to Bombay the undermentioned troops returning from field service:—The 5-8 R. A., No. 3 Company of Sappers and Miners, 4th Regiment N. I., and 9th Regiment N. I.

The *Bombay Guardian* is glad to announce the arrival of another missionary for the Ch. Missionary Society's work in Western India, the Rev. H. A. Brun. The Rev. Mr. Cross having resigned the Principalship of the Robert Money School, Mr. Bren has been appointed to succeed him. It is nearly twenty years since Mr. Carss came to India, and he has been from the beginning, if we remember rightly, connected with the Money School, most faithfully and ably discharging the functions of that important charge. Mr. Carss will for the present remain in Bombay, devoting himself to work more directly evangelistic.

We hear from Simla that Archdeacon Matthew, who has been very seriously ill, is pronounced out of danger. Dr. C. W. Owen, of Kabul celebrity, has been untiring, night and day, in his attendance on the invalid since the commencement of the attack from which the reverend gentleman has been suffering. Dr. Eteson, also, was equally devoted in his skilful care of the patient. The Bishop of Lahore visited Simla to see the Archdeacon.

Colonel St. John, C.S.I., A.G.-G. in Beloochistan, has passed down country on his way home for a year's furlough. Colonel Waterfield is at present acting at Quetta, where public affairs are fairly smooth and quiet for the present.

His Highness the Maharaja of Furredkote is having his house, "Ravenswood"—in which the late Fine Arts Exhibition was held at Simla—razed. A new mansion is to be built on the site, at a cost, it is said, of fifty-thousand rupees.

The Government of India have ruled that the appointment of District Superintendent of Police at Port Blair shall be a five years' appointment; and that as it is one which needs military rather than police qualification, the incumbent shall be a regimental officer, who would be seconded in his corps.

Those men of the Royal Artillery belonging to the batteries proceeding to England who have not completed six years' service in India on the 1st April, 1882, are not to proceed home, provided their time will not expire, until 1883. Officers wishing to exchange in order to remain in this country will be permitted to do so.

The North-West Provinces crop and weather report for the week ended the 30th Nov. states:—"No rain. Rabi sowings nearly completed. Irrigation general. Prices stationary. Fever abating slightly. Cholera decreasing in Fyzabad, and slight measles and small-pox in Kumaun. Cattle disease decreasing."

The *Indian Daily News* writes:—The rumour that Mr. Hope, the Financial Secretary to the Government of India, will, at no distant period, give up his present appointment for a seat in the Executive Council at Bombay is gaining ground. The emoluments of the office of a Member of the Council at the Western Presidency are higher than those of the Financial Secretary.

The Hon'ble Mr. Gibbs and the Misses Gibbs are on a short visit to Allahabad, and are the guests of Sir Robert Stuart, Chief Justice of the Allahabad High Court.

The conditions for the Calcutta Volunteer Rifles' Annual all-comers' contest, open to all India, appear in another column. The distances are the same as last year,—500 and 600 yards, ten shots at each, Wimbledon targets and scoring—and the aggregate amount of the prizes offered is the same, viz., Rs. 1,000; but the money is divided differently. There are twenty prizes, the first three Rs. 300, Rs. 200, and Rs. 150 respectively, and the remaining seventeen ranging from Rs. 75 to Rs. 10. The match can be fired on any range between the 1st January and the 15th February; and competitors may shoot as often as they please on payment of the entrance fee (Rs. 4) for each entry.

The *Bombay Guardian* is most of "Senex's" opinion in regard to the Pillow Mission:—"With reference to some remarks in the columns of a contemporary about the Pillow Mission, the following from the report of a chaplain on the way in which letters placed by this mission on the pillows of patients are regarded by them, we take from the last number of the *Christian*:—

"I make it a rule to go into every room and ward to wish young and old a happy Christmas, and I found it rather a difficult task last Christmas to get my round of visits complete in time to appear in the dining-hall at the dinner-hour. Each and all seemed to have something to say about the unexpected letter found on their pillows as soon as they opened their eyes. Some expressed their astonishment that they should be remembered by good people outside; others read to me in their own words the contents of their letter, many breaking down, so overcome by their feelings; others, again, would have me examine and read theirs, "it was so beautiful;" whilst others would exclaim in their own kindly and homely way, "My dear, it is God's doing." Altogether the effect was most cheering and comforting, and such as must amply repay yourself and all the kind friends who take so deep an interest in the mission.'

Similar witness is borne by other chaplains."

The *Statesman* has "unquestionable authority for stating that the subject of reducing the armies of Native Princes was not discussed at the recent interview between the Viceroy and Sir Lepel Griffin." We were under the impression it was authoritatively stated that there was never any intention of discussing this subject.

The *Indian Daily News* says:—The *Bombay Gazette* has a valuable article on the subject of recruiting for the Bombay Army. Our contemporary shows that sufficient use is not made of the recruiting grounds open to the Western Army. He also points out the remarkable fact that, if soldiers not belonging to the Bombay Presidency be counted, then, taking the strength of the Bombay infantry regiments at 700 men, 16,200 sepoys are required to complete their numbers. Our contemporary points out the good qualities of soldiers to be had in the Mahratta districts, the Konkan, and the Deccan, and urges upon the Government that more attention should be paid to the primary recruiting grounds of the Bombay Presidency, and that while Sikhs might be admitted into Bombay regiments to the extent of 100 men per battalion, too great an effort should not be made to fill Bombay regiments with recruits from the Bengal provinces.

Unless better inducements are offered to natives, the difficulty of finding recruits will increase rather than decrease, says the *Indian Spectator*. And in this connection we may say that very many of the better class of Parsees would willingly offer themselves as soldiers and prove themselves worthy of the blood of their ancient warlike ancestors, if they were assured of good pay and food and better pension rules than now offered by the Government. There is no lack of men, be they Mahrattas or Concan Mahomedans, or Bombay and Nowsari Parsees.

The Kulu correspondent of the *Delhi Gazette* states that "the Balargi lead in Kulu assayed 66 oz. 7 dwts. 16 grains silver, and 7 dwts. 16 grains gold per ton, which is pretty fair for surface stones only."

What may be the meaning of this rumoured abolition of the Indian Customs revenue? says the *Indian Spectator*. It is to be hoped that the wire-pullers at home will not launch our Government upon such an insane enterprise. We detest the present form of the Licence-tax, and are likely to welcome a reasonable Income-tax, which has not had a fair trial. But the iniquity of such an arrangement as the *Pioneer* suspects is appalling, and with the *Bombay Gazette* we refuse to believe the report, which may have but a very thin substratum of truth. The mystery ought to be cleared up as early as could be.

Rumours have, says the *Englishman*, for some time past been current, both at Simla and elsewhere in India, to the effect that one of the principal features of the next Indian Budget Statement will be a total abolition of the imported duties on cotton goods and a provision for the consequent loss of revenue by the re-imposition of an Income tax. There is, probably, a good deal of foundation for the report, and recent advices received from England, based upon unimpeachable authority, distinctly affirm what has hitherto only been vaguely shadowed forth. We are assured upon good authority that the Indian Finance Minister has actually submitted to the Marquis of Hartington a proposal for sweeping away the remnant of the cotton duties, and thus completing the holocaust to which Lord Lytton's Government attempted to offer to appease the *dii majores* of Manchester.

The Rajputana railway has found an all-lengths champion in a "Travelling Correspondent" of the Calcutta *Indian Mirror*, who writes:—

During the last two months I have travelled over six distinct lines of railway:—The Sind, Punjab, and Delhi; the East Indian; the Oudh and Rohilkhund; the Rajputana State Railway; the Bombay and Baroda; and the Bhownuggur and Gondal line. Of these the Rajputana and Kattyawar lines are narrow gauge, and the rest are all broad gauge. A comparison between the broad and narrow gauge railways is always obnoxious, because in the very nature of things the former has certain advantages which are necessarily excluded from the latter. But still the Rajputana State Railway, even with such natural disadvantages, may well challenge a comparison. Barring the East Indian line, which is managed in a spirit of imperial liberality, the arrangements over the long distance between Agra and Ahmedabad beat those on every other line of which I have any experience. And, I believe, I have travelled over nearly every line of railway yet constructed in India. The East Indian Railway has comfort without much economy; the Sind-Punjab has economy without comfort; the Oudh and Rohilkhund and the Great Indian Peninsula have neither economy nor comfort; and I think I may honestly say the Rajputana line combines comfort with economy. The second class carriages have scarcely any difference from the first, and even the third class carriages are carefully clean, polished, and well looked after. Refreshments are cheap, water plentiful, officers polite, stoppages long, though I must say, the speed is somewhat slow."

What will Mr. Conder and Mr. Duxbury say to this? Our idea is that speed in railway travelling is a *desideratum* even in India, and in this respect the B. B. and C. I. Railway is the best worked Indian railway we have travelled over. But as for comfort,—perhaps the arrangements regarding refreshment stations are capable of improvement. We wonder whether we are right in identifying the author of the above remarks with the Babu Protap Chunder Mozumdar who, the same issue of the *Mirror* tells us, "recently arrived at Ahmedabad by the Rajputana Railway," and "is now on a visit to Kattyawar, having "Saturday before last reached Bhownuggur." If so he apparently has not had much experience of the B. B. and C. I. line (only from Ahmedabad to Wadwan), and none at all of the G. I. P., as he would branch off from the East Indian line on his journey from Calcutta to join the Rajputana railway.

The Calcutta papers are considering the feasibility of a scheme for establishing an aquarium in connection with the Calcutta Zoological Gardens. A correspondent of the *Hindu Patriot* suggests that "it would be a credit to Calcutta, and a greater credit still to any native gentleman possessing the means, if he made a donation to the Zoo for the purpose of starting a large aquarium, or several large aquaria, to be accommodated in a house to be called after the donor." The *Indian Mirror* does not think that bait will take, "considering how little attention has been paid to the feelings and tastes of the native community by the present Managing Committee of the Zoological Gardens." The *Mirror*, however, "thoroughly and heartily appreciates the fine taste which has prompted this agitation," and thinks that a more ready and, perhaps, a more hopeful way of attaining the desired object than trusting to the doubtful liberality of native noblemen and gentlemen, who freely opened their purses in assisting the establishment of the Zoological Gardens on their present magnificent scale, would be to raise a public subscription for the construction of the house and the aquaria both from the native community, who are supposed permanently to benefit from the institution, as well as from the European citizens of Calcutta and its environs, who, with the conveniences and facilities provided for their special behoof, partake most largely of its amusements.

The Lahore paper has received advices from Kabul representing that the intention of the Amir is to leave Kandahar for the capital on the 19th December. The alleged occupation of Herat by the Amir's troops is generally doubted, and many people maintain that an understanding between the Amir and Ayoub has been arrived at privately. The rumour of an impending visit to the Viceroy by the Amir has been again revived. The execution of the free-booter Daoud Khan by being trampled to death by an elephant is reported. Gholam Mahomed Khan of Kandahar has been imprisoned on a charge of abetting Ayoub Khan. Sirdar Sarwar Khan has been appointed to succeed Mahomed Zaman Khan as Governor of Ghazni. The forts and lands belonging to Mahomed Jan and Golam Hyder Khan have been assigned to the sons of Khuda Nazr Khan. The houses of Mirza Sirundaz Khan and Surmust Khan, accused of having embezzled large sums of money, have been searched, and their property, found to the extent of 30 lakhs of rupees, has been confiscated.

The commands of Cawnpore and Benares become vacant on New Year's Day, 1882, on account of both of the present commandants succeeding to their colonel's allowances on that date. Colonel A. C. Bunbury, B. S. C., who commands at the former station, entered the service on 1st January, 1844, and joined the Staff Corps from the 34th Regiment Native Infantry in 1866; whilst Lieutenant-Colonel Franks, who commands the 10th Regiment Native Infantry, as also the latter station, has nearly 12 years' less service, his first commission being dated 1st October, 1855. He, however, did not join the Staff Corps, but remained a local: hence his luck in obtaining his off-reckonings in a little over 26 years' service. Colonel Franks has commanded the 10th Native Infantry since 2nd July, 1879; he will, it is believed, avail himself of the two years' furlough granted him by G. G. O. dated 23rd September, 1881, in the beginning of the year. The allowance for commanding at Cawnpore is Rs. 400, whilst that of Benares is only Rs. 200 per mensem. Lieutenant-Colonel G. B. Fisher, of the Bengal Infantry, who came into his allowances on the 27th ultimo, is even luckier than Colonel Franks, for he only entered the service on the 20th December, 1856, and consequently obtains his £1,100 with a little less than 25 years' service. Colonel Fisher is at present on furlough.

According to the latest accounts from Tashkend, General Kauffman, the Governor-General of Russian Turkestan, is still extremely ill; his condition is described as precarious.

Major the Hon'ble R. W. Napier, B. S. C., is to be allowed to retain his appointment on the staff of Lord Napier of Magdala, at Gibraltar, until such time as his Lordship vacates the Governorship of that fortress.

Vessels sailed.—The following vessels sailed on the 3rd:—Lizzie English (s), for Dunkirk; Inchcutha (s), Liverpool; Kedron, Calcutta; Arrow (s), Coast and Chittagong; Venetia (s), China; Norfolk (s), London.

Prince's Dock.—The s. s. Hispania entered the dock on Friday, and the s. s. Kashgar entered on Saturday.

Postal Notice.—Mails for Durban (Natal) per hired transport Calabria will be closed at the General Post Office to-morrow (Tuesday) at 10 a. m.

Police Courts.—The Girgaum and the Fort Police Courts were closed on Saturday last owing to the Mohorrum holiday sanctioned by Government.

The Co-Regent of Hyderabad.—The Co-Regent of Hyderabad, Nawab Shums-ool-Oomrah, Ameer-i-Kabeer, is ill. The *Deccan Times* states that "for some time past he has been in very delicate health, and instead of improving, we regret to say that up to a few days ago he gradually grew worse, and a great deal of anxiety was felt on his account. Since then, however, some signs of improvement have manifested themselves, and it is to be hoped that he will soon regain his usual health."

The Feast of St. Francis Xavier.—The feast of St. Francis Xavier, the Apostle of the Indies, which fell on Saturday, the 3rd instant, was celebrated with due solemnity on the following day (Sunday) at the church of Our Lady of the Rosary by certain members of the confraternity bearing the name of that apostle. The mass selected for the occasion was one of Cassali's compositions, and was sung and played by the pupils of the St. John's music class established at Matharpacarry and Mazagon, under the able direction of their master, Mr. John D'Costa. Considering that the St. John's music class is only in its infancy, the way in which the mass was rendered reflects credit both on the pupils and their master.

The Young Men's Christian Association.—Our readers will have noticed the special appeal of the Y. M. C. Association of Bombay for funds to clear off the remaining financial responsibilities incurred through the erection of the large and handsome building near the Apollo-bunder and the smaller one at Prince's Dock. The need of these buildings is abundantly shown by the use made of them since they were opened. The coffee-rooms and reading-rooms are much used by the classes for whose sake they were specially designed. We are aware that many have already contributed to these good works, but it may be that others have not done so, and we beg to commend to their notice the appeal in question. One hundred subscribers contributing the monthly sum of Rs. 5 for four months will clear off the whole of the debt still pending. Who will fall into line?—*Bombay Guardian.*

Departure of Major Oldham.—Few persons have left these shores more regretted than Major Oldham, who has left us this week for England with not much expectation of returning. During the last ten years he has been a resident of this city, and his life has been a continual testimony to the saving power and transforming power of Christ. The love of God shed abroad in his heart has given him not merely an abiding joy and peace, but has led him to seek in every way to come to the help of his fellow-men of all classes. A member of the Girgaum Church, he has always exhibited the greatest catholicity of spirit, interesting himself in every good work, no matter by whom carried on, but specially seeking to befriend those works that were most in danger of being overlooked by the general public. We were present at a gathering the other evening where representatives of different classes of society, European and native, united to give expression to their feelings of respect and warm attachment for him. Major Oldham came to India in the beginning of 1860. He and his will be followed by the prayers of many in this land, especially of many among the poor.—*Ibid.*

Mr. Vidal v. Mr. Macrae.

BOMBAY GYMKHANA GOLF.

The competition for the St. Andrew's annual gold medal came off on Tuesday and Wednesday last amongst a larger field of players than we have had the pleasure of seeing this year. The new course of 12 holes was played, but the scores were not as brilliant as they might have been, owing, we believe, to many of the "greens" having lost their verdancy and the regular attention of their decrepid keeper, whose efforts at his worthy calling climatic influences have seriously baffled. The play resulted in W. Arnot finishing first with a score of 119—a well-earned victory, and grudged by no one, seeing that he has never won one of the Club's medals before. In the handicap there were also a number of entries, liberal points being given, and the winner turned up in McLaren with a carefully played score of 104; but he won with such ease that he must be remembered less favourably in the next handicap.

The following is the score.

BOMBAY PORT TRUST.

Excerpts from the proceedings of a meeting of the Trustees of the Port of Bombay held on the 22nd November.

PRINCE'S DOCK.

Read memo. from the Dock Superintendent, dated 2nd November, forwarding a petition from the piece-goods dealers frequenting the Dock, asking that a small shed be built at the S.-W. corner of C. shed, to give shelter to their water Brahmans, and that a water-pipe be placed therein. Read memo. by Resident Engineer, dated 7th November, estimating the cost at Rs. 1,143 for a shed of corrugated iron sheets on wooden framing at Rs. 151. Read minutes of members of Dock Committee. Resolution.—Sanctioned as a charge against revenue.

Read letter from the Dock Superintendent, dated 9th June, recommending that four floating stages be constructed, to enable vessels to be loaded and unloaded at outside berths in Prince's Dock. Submitted letter from Consulting Engineer, dated 25th July, stating the practice is in England with regard to outside berths, and giving it as his opinion that the proper mode of relief for the increasing traffic is by making the extension into Musjid Bandar. Submitted report by Resident Engineer, dated 8th November, submitting plans and estimating the cost of converting an old barge into a pontoon at Rs. 3,000. Read minutes of members of Dock Committee. Resolution.—The conversion of an old barge into a pontoon, as proposed by the Resident Engineer, is sanctioned, at an estimated cost of Rs. 3,000 to be charged to revenue.

PORT TRUST DEBENTURES.

Submitted the following letter from Mr. G. A. Kittredge, dated 3rd October, recommending that the Local Government be requested to take the necessary steps to enable them to guarantee the Port Trust debentures whenever such guarantee may appear to His Excellency in Council to be desirable, and giving reasons for making the request. Read report of Finance Committee, dated 18th November, recommending that copy of Mr. Kittredge's letter be sent to Government with an intimation that the Trustees concur in the idea that the guarantee of the Bombay Government would be of great advantage to the Trust in disposing of their bonds, and further, that the guarantee would enable them to place their bonds on the London Stock Exchange at a very favourable quotation. Resolution.—Copy of Mr. Kittredge's letter should be sent to Government, who should be addressed in the terms recommended by the Finance Committee:—

Bombay, 3rd October, 1881.

To the Secretary, Bombay Port Trust.

Sir,—As the favourable time appears to have passed for putting upon the market the Port Trust loan for 76 lakhs, in order to repay to His Government of India the money sent on account of the Bombay Dock, it seems advisable in order to make the loan as popular as possible and thus to dispose of it at the best rate practicable, that the H. E. the Governor in Council to give to the debentures when issued the formal guarantee of the Bombay Government—a guarantee I would practically have even now under the terms of the Port Trust Act, though special legislation would probably be necessary before the formal guarantee could be given.

Under section 35 of the Port Trust Act, the Bombay Government guarantees the payment of interest on the amounts due to the Government of India and also on the securities known generally as the "Foreshore Bonds." The proposed loan of 76 lakhs will be issued under Section 34, and in Section 41 it is provided for loan thus issued, "if such money shall be raised on debentures bearing interest, such interest shall be a charge on the rates prior to any interest in the Trust shall be applied to the Secretary of State for India in Council provided for by Section 34." It is also provided in Section 31 that the proceeds of the sale of the Reay Estate money invested in the purchase of Government securities, or applied to the liquidation of the principal of any sum contracted under para. 2 of Section 29, if the same or any portion of the same is at the time payable; secondly, in liquidation of the principal of the debt due to the Secretary of State for India in Council; and third, in liquidation of the securities, or any of them, issued under Section 30 (these last being the "Foreshore Bonds," and payable only at the pleasure of the Trustees).

It seems clear, therefore, that the Government of Bombay in accepting the formal guarantee of the proposed loan, would accept no real responsibility, beyond that already undertaken; while such a guarantee, if distinctly acknowledged, would undoubtedly assist the Trust in placing the loan upon the market at the most favourable rates.

It would also, I think, be well to go even further and to ask H. E. in Council, if legislation be undertaken for the above purpose, to obtain also the power to give the guarantee of the Government to other loans issued by the Trust, should such a course appear hereafter to be desirable. It is known to the Trustees that the interest on the moneys advanced by the Government of India for the purchase of the Elphinstone property, though now standing at 4 per cent., will from the 26th day of June, 1883, be advanced to 4½ per cent. It is quite possible, if good securities continue to range as high as they have done during the past year, that the Trustees may be in a position to place upon the market at a better rate of interest than 4½ per cent. the whole or a portion of this sum, and thus repay the Government of India, and save the whole or a portion of the increased interest for which the Trust will be liable from June, 1883. If they should be able to borrow the whole amount at 4 per cent. the saving of interest from the above-named date would be Rs. 1,05,000 [about] annually. Putting this prospective saving with that to be anticipated on the 76 lakhs above referred to, we have a total sum of Rs. 1,143,000, and it is in fact to make this sum annually to the trade of the port, that we shall ask the Bombay Government to give its formal in addition to its practical sanction to the loans to be offered to the public when a favourable time arrives.

It seems reasonable to ask this of Government because,—as Government will have pointed out, will not, by acceding to our request, add anything to the real responsibility they now bear in the matter of these loans.

2nd.—Government have power under the Act to compel the Trustees at any time to raise their rates, should it be necessary to do so in order to meet the liabilities of the Trust.

3rd.—Government is directly interested in the prosperity of the trade of its chief port, and may fairly be asked to give the Trustees credit to assist the trade when that credit may be granted without Government incurring any fresh risk.

4th.—The reduction of an annual charge of Rs. 1,43,000 on the revenues of the Trust, or even a portion of that sum, will really lessen the responsibility now actually borne by the Bombay Government, as it will reduce by such amount the interest which the local Government now guarantees to the Government, of India and to the public.

As it will probably take some time to secure the legislation necessary to enable the Government of Bombay to give its guarantee as suggested, the matter cannot be too promptly brought to the notice of Government, and I shall therefore propose at the next meeting of the Trustees that His Excellency the Governor in Council be asked to take the necessary steps to enable the Bombay Government to give its guarantee to the debentures issued by the Bombay Port Trust whenever such guarantee may appear to His Excellency in Council to be desirable.—I am, &c.,

G. A. KITTREDGE.

Read letter from Mr. G. A. Kittredge, dated 19th November, recommending that the Trustees take the necessary steps to pull down the London market the "Foreshore Loan," which is guaranteed by the Bombay Government, and forwarding papers explaining what these steps are. Resolution.—This question should be referred to the Finance Committee, aided by Mr. Kittredge and the Hon'ble Mr. Sassoon in the first instance. The advisability of now arranging for the issue of coupon bonds in place of the present Foreshore Bonds should also be considered by the Committee.

FIREWOOD DEPOTS AT MAZAGON.

Read letter from the firewood dealers at Mazagon, requesting that the fee of 3 pies a cart levied on their wood under agreement be abolished. Read report by Traffic Manager, dated 31st October. Read minutes of members of Land Committee. Resolution.—The applicants should be informed that the whole arrangement entered into by them with the late Mazagon Company and hitherto acted upon by the Trustees may be cancelled at one week's notice if its terms, including the cart-fee, must be enforced.

THE KENNERY LIFE-BOAT.

Read Government Resolution, General Department, dated 7th October, suggesting that the Trustees maintain the Kennery life-boat throughout the year. Read report by Port Officer, dated 28th October, stating that he sees no necessity for keeping the boat manned throughout the year. Read minutes of members of Harbour and Pilotage Committee) Resolution:—As recommended by the Harbour and Pilotage Committee, Government should be informed that the Kennery life-boat will in future be maintained from 15th May until 30th September, instead of from 1st June to 30th September as hitherto, and that the Trustees do not consider it necessary to maintain the life-boat during the entire year.

MADRAS TIME.

Read letter from the Superintendent, Government Observatory, dated 12th November, referring to Government Resolution directing that after 1st proximo Madras time is to be adopted in all public offices, and inquiring whether the Trustees propose to make any change in the time at which the daily signal is made at the Time Ball Tower. Read report by Port Officer dated 18th November. Resolution.—Consideration postponed.

The following were amongst the papers laid on the table:—

Government Resolution P. W. D., dated 3rd November, directing that the unused military guard-room situated on land at Colaba vested in the Trustees may be made over to the Trust.

Government Resolution No. 642, dated 9th November, sanctioning the rule passed by the Trustees with reference to the shipment of coal and stores overside in dock.

Letter from Port Officer reporting the swamping of a prow loaded with coal off the Time Ball Tower on 14th instant.

Letter from Port Officer reporting that the ferry steamer Gogo collided with an empty prow on 12th instant and swamped her, and that the steamer afterwards towed her into the Mody Basin.
